50th Session of the UPR Working Group
Review of Malawi

Geneva, 4 November 2025

Mr. President,

Iran welcomes the delegation of Malawi. We acknowledge the efforts to improve living conditions across the country.

In a spirit of constructive cooperation, we offer following recommendations:

١. Further promote universal healthcare coverage, particularly in underserved areas.
٢. Strengthen inclusive education initiatives to reduce school dropout and improve educational infrastructure for all children.
٣. Enhance access to safe drinking water through effective implementation of WASH programs.
٤. Expand poverty reduction measures by increasing support for vulnerable families and communities.

Iran encourages Malawi to continue its efforts to improve well-being of all its people.

We wish Malawi a successful review.

Thank you
